

Connected Scheduling:

Manage staffing, save time and reduce costs

Approved NHS Supplier for Staff Pools

The leading workforce platform for systems

Successfully implemented across **2,000** practices, **260** Primary Care Networks, and **several** Integrated Care Systems:

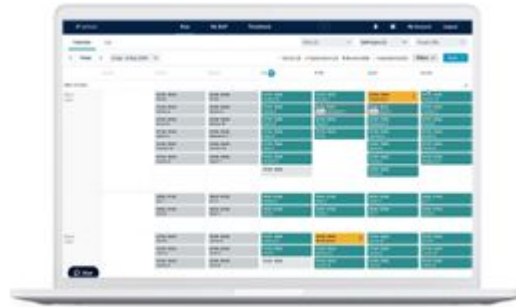

End-to-end workforce management

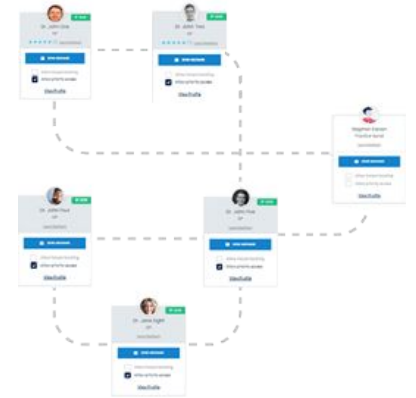

With your staff bank, rota tool and clinician network in one place, Connected Scheduling gives you end-to-end workforce management - increasing visibility, saving time and money, and removing inefficiencies.

**Digital
staff bank**

**Integrated
rota tool**

**Network of
30,000 clinicians**

Features and functionality

Digital staff bank

- **Add an unlimited number** of staff
- **Add multiple staff types**
- **Provide access to all practices** in a PCN or ICS
- **Clinical governance checks** are completed just once
- **Custom reports** on usage and demand
- **Consolidated billing** and statements

Integrated rota tool

- **Pre-set shift types** with populated information
- **Automatic notifications** to inform staff of schedule changes
- **Direct message** staff members
- **Customisable staff groups** to control who is notified about shifts
- **Automated next day payments** with Rocketpay
- **Automated signing** of GP pension forms
- **Custom reporting** on staffing and fill rates

Network of 30,000 clinicians

- **Book locums with 10% fees**, instead of the standard 30% fee charged by recruitment agencies
- **Negotiate shift rates directly**, saving time and staffing costs
- **Get smart-matched with staff** available to work in your area

The benefits of Connected Scheduling for your ICS

Deploy staff flexibly

With 'passporting', you can deploy staff where they're needed, regardless of employer.

A system-wide staff bank eliminates traditional boundaries to liberate your workforce.

Get full visibility across your ICS

See staff demand and usage, and respond accordingly.

And, with custom reporting, you can track usage, fill rates bookings and more.

Attract and retain the best talent

Lantum gives staff more control over their availability and schedules with an app, and makes remote working easy.

So you can offer the flexibility they want and improve retention.

Cut agency spend significantly

Lantum reduces reliance on agency staff by giving you a system-wide staff bank.

And, if you do need to book locums from our clinician network, you pay 10% fees instead of the standard 30% that agencies charge.

Future-proof your system

With Lantum, you have the infrastructure in place to quickly set up and staff new services.

So, whatever the future holds, your ICS is in a position to adapt.

The benefits of Connected Scheduling for your PCN

Make collaborative working simple

Deploy staff effortlessly across your PCN with network-wide bank of all staff types - from GPs to ARRS staff.

Set up and staff new services in record time

Launch, schedule and staff new services quickly with a staff bank and integrated rota that gives full visibility across all relevant organisations.

Schedule ARRS staff equitably and efficiently

With a network-wide, integrated rota tool, you can schedule shared staff across practices in your PCN and ensure full transparency over how their time is used.

Improve fill rates to an average of 85%

With our network of 30,000+ clinicians, there is always someone available to fill a shift - in fact 96% of shifts posted on our clinician network get at least one application. Plus governance, pension forms, invoicing and payments are taken care of.

The benefits of Connected Scheduling for your practice

Expand your pool of trusted, available staff

With access to a staff bank of clinical and non-clinical staff across your PCN, you can find the resource you need, when you need it.

Make scheduling effortless

Create rotas with pre-populated shift types, and select workers from your staff bank to fill them. You can also post a shift to the clinician network to receive applications. And, if someone is sick or unavailable, Lantum automatically suggests replacements.

Significantly reduce administrative burden

We carry out Clinical Governance Checks when members join the staff bank, and build in compliance rules to your rota, so you can book and schedule staff without worrying. You can also save time by automating payments and GP pension forms.

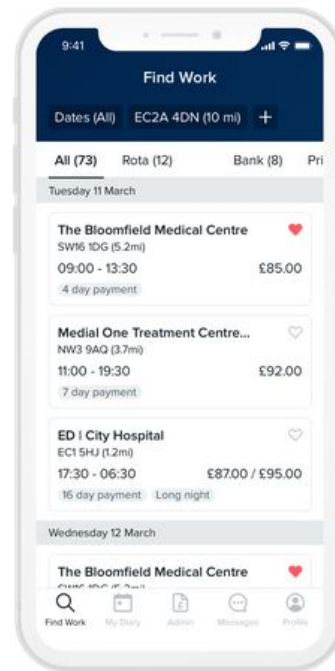

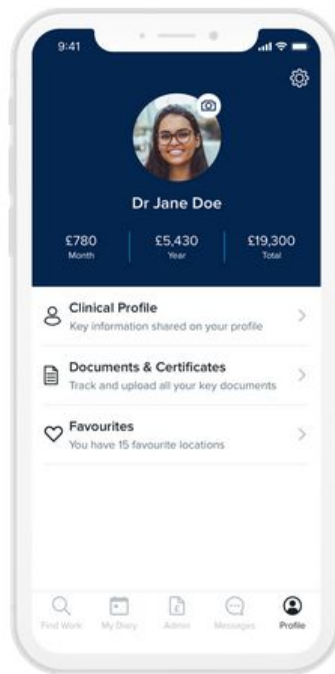

Improve communication and visibility

All rota managers see the same rota at the same time, in real time - reducing duplications and clashes. Plus, any rota updates are automatically communicated to relevant staff, reducing the needs for emails and phone calls.

The benefits for your staff

- * **Get more flexibility and control over your schedule**
With full visibility of bookings, and the ability to apply for, accept, cancel and swap shifts, through the app
- * **Find more work more easily**
With notifications about available shifts, matched to skillset and location
- * **Get paid the next day with Rocketpay**
With no need to chase payments ever again
- * **Improve communication with organisations**
With automatic notifications and quick direct messaging
- * **Make compliance simpler**
With a place to upload and store documents where they can be viewed by organisations

“

I've loved using Lantum. The calendar has made managing my shifts so much easier.

”

Dr David Watkin

“

Lantum has enabled us to mobilise a new service in a very limited timeframe and to build our own staff bank.

It's changing the way we work, and empowering our staff to work in new ways.

”

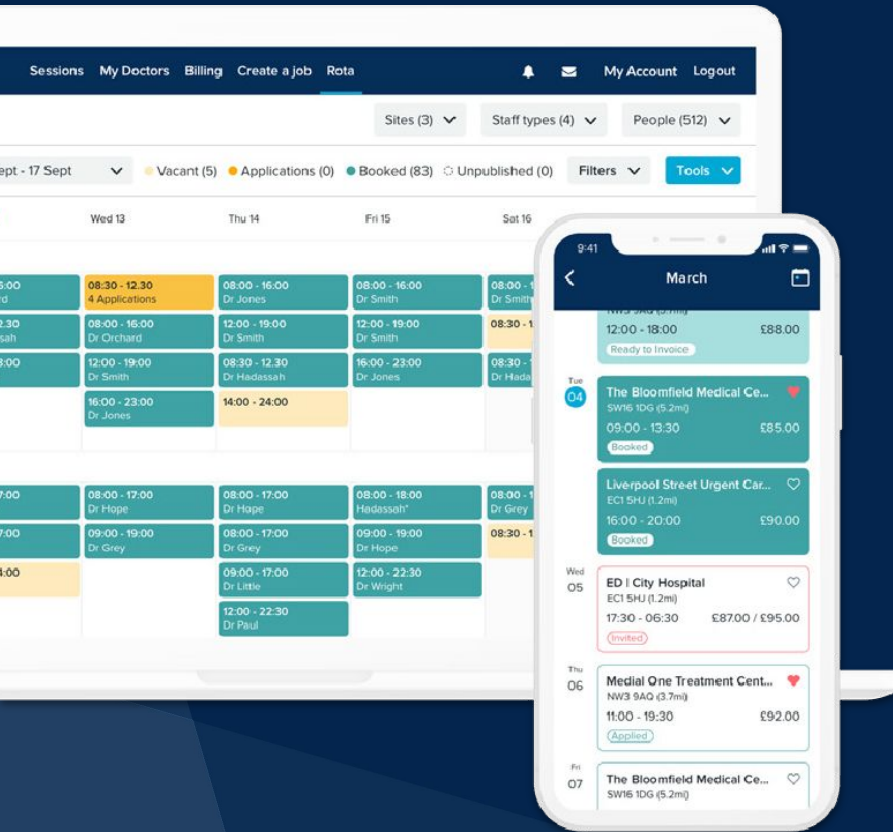

Dan Kane
Northampton GP Alliance

Customer success stories

- * Sutton GP services **reduced rota admin time by 75%**, **treated an additional 14,500 patients** in one year, and **filled 99% of shifts** for an out-of-hours service.
- * Conexus Healthcare **expanded primary care capacity** in Wakefield **by 189 hours**.
- * Alliance for Better Care **mobilised 1,500 staff across 10 vaccination sites** to deliver **100,000 vaccinations** in 3 months.
- * Dorset ICS achieved a **90% fill rate** in the first month, and **launched new services** like Covid Hot Clinics **in as little as 7 days**.
- * Greater Manchester Health and Social Care Partnership **onboarded 88% of practices** within 6 months, and **reduced agency spend to save a projected £1.1m** in year one.

The Lantum difference

- * **The only platform to offer end-to-end workforce management** for greater efficiencies, savings and visibility
- * **The only platform to offer multi-disciplinary staff banks** out of all providers on the NHS digital supplier framework
- * **The only platform to offer automatic next day payments** – keeping staff happy while reducing admin
- * **The only platform with a partnership with LIVI**, enabling organisations to send sessions for remote consultation
- * **The only platform to offer automated admin as standard** as well as clinical governance checks for certain staff
